

Abba

This is a regex golf problem. You have to write a regex that matches all lines from one list and none from the second one. Matching is implemented as Perl's `m//`, so it's not a precise match. E.g. to match "SPOJ" you don't need regex `/^SPOJ$/` since it's enough to write `/PO/` or `/J/`.

The regexes submitted should be compatible with Perl regular expressions (version 5.20.1).

Score is calculated as follows: it's equal to the length of your regex and for every line from the first list that's not matched by your regex X points are added to your score. Analogically, for every line from the second list that's matched by your regex X points are added to your score. The lower your score is, the better. X often equals 10 but it's different in some problems. Check below this problem's X value.

To quickly check the quality of your solution visit the original [regex golf project](#).

Please don't look for solutions for this problem online or at least don't post them here if you didn't come up with them on your own.

Match all of these...

acritan
aesthophysiology
amphimictical
baruria
calomorphic
disarmature
effusive
fluted
fusoid
goblinize
nihilistic
noisefully
picrorhiza
postarytenoid
revolutionize
suprasphanoidal
suspenseful
tapachula
transmit
unversatile
vibetoite

And none of these...

abba
anallagmatic
bassarisk
chorioallantois
coccomyces
commotive
enagrammatic
glossoscopia
hexacoralla
hippogriffin
inflammableness
otto
overattached
saffarid
sarraceniaceae
scillipicrin
tlapallan
trillion
unclassably
unfitting
unsmelled
warrandice

X = 10
